STATE OF THE FEATHER

Bertrand Delacretaz

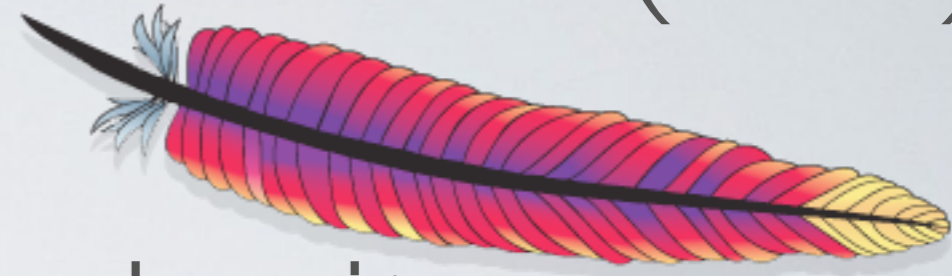

@bdelacretaz, <http://grep.codeconsult.ch>

Member and current Director, Apache Software Foundation

With thanks to Shane Curcuru for these slides!

The Apache Software Foundation (ASF)

is a

non-profit public charity
which provides
software at no charge
for the **public good.**

We just provide
a neutral space for our projects to flourish
“the Switzerland of Open Source”

COMMUNITY OVER CODE

It's not just about sharing tools,
we are a **community of
developers and users.**

Project communities set their own direction.
The ASF exists to support them.

And big thanks to our many **volunteers** in infrastructure, communications and many other areas!

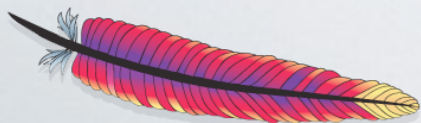

MANY PROJECTS

The ASF provides services for the entire project lifecycle:
43 Podlings (upcoming projects)

167 active Apache projects

25 dormant Attic projects

MANY TECHNOLOGIES

- Big Data
- Cloud API & management
- Content Management
- Database & NoSQL
- Web & mobile development
- Messaging
- Geospatial / Scientific
- Dev / Build Tools
- Network servers
- OSGi
- Things I don't even understand
- etc, etc..

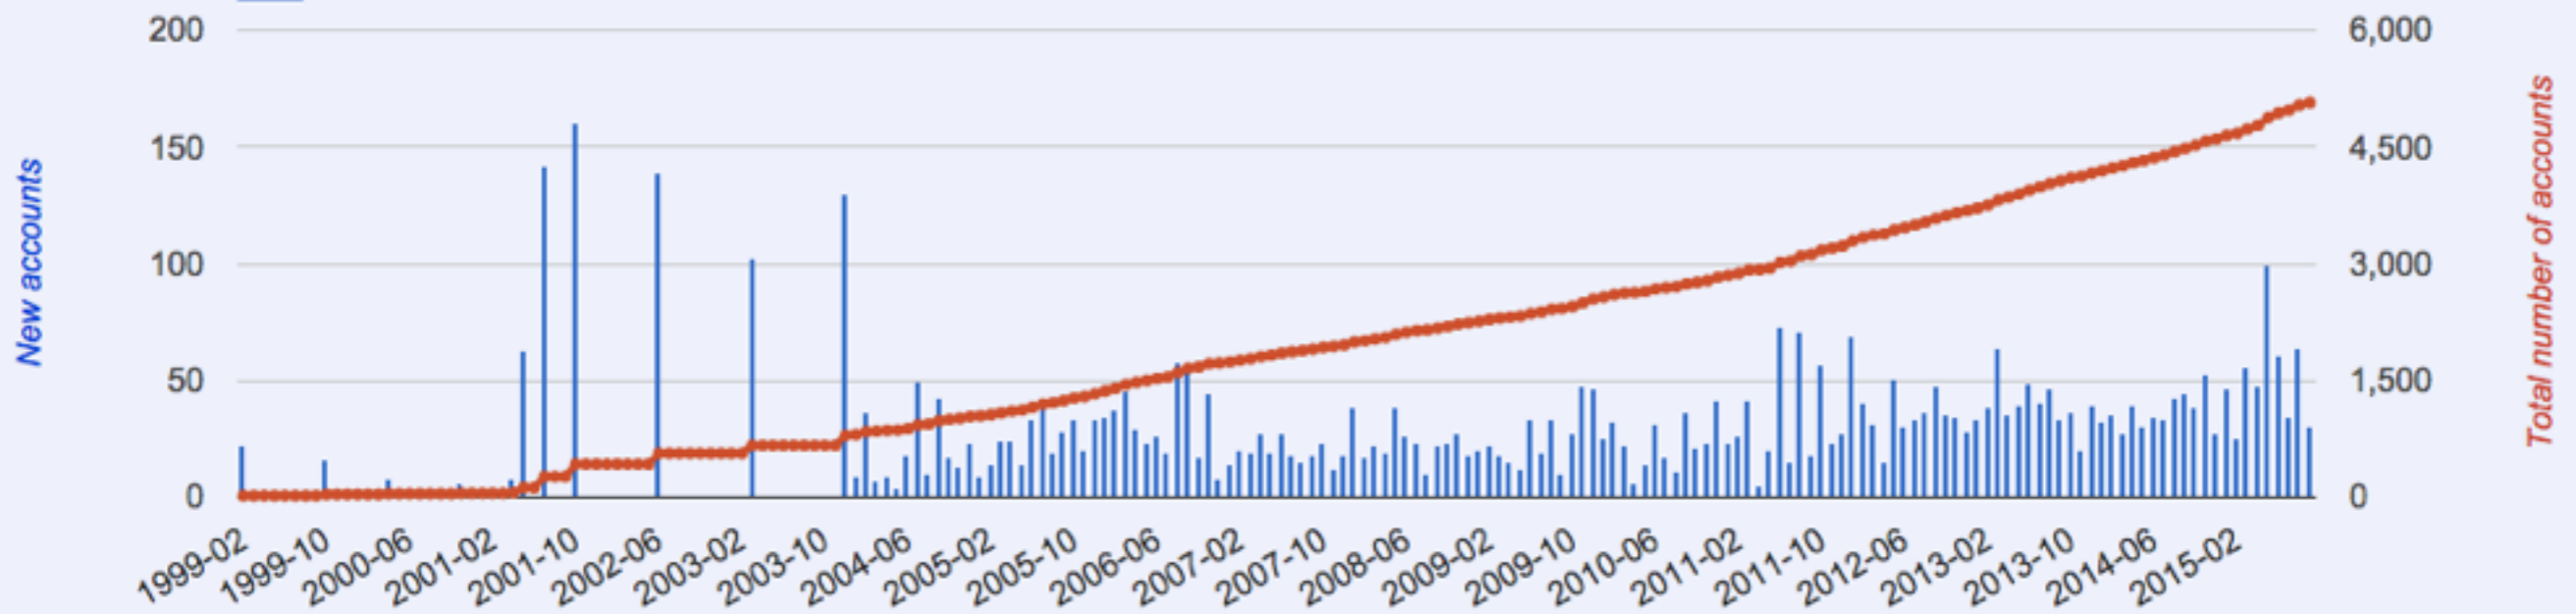

The ASF does **not** have a technical strategy - we just provide the neutral space.

MANY COMMITTERS

APACHE STAYS THE COURSE

TPKDTNFY

**THE PLAN IS TO KEEP DOING THIS
FOR THE NEXT FIFTY YEARS**

(and maybe get some optometrists as sponsors)
